NEWSLETTER

February 2024

Late summer pasture can be dry, stalky and lacking in good nutritional value. A great supplement for this time of year is a Seales Winslow Lifestyle Block. A complementary multi-species mineralized feeding supplement suitable for cattle, sheep, horses and goats.

Lifestyle blocks are molasses blocks enriched with minerals, trace elements and vitamins to help to stave off deficiencies which can affect health and performance.

Allow one block for up to 50 head of stock, remove lid and allow free access. Provide enough blocks to prevent crowding and ensure shy feeders get their share. If blocks become dry, site near water and douse regularly.

Horse specific molasses blocks are also available.

WATERING YOUR FEATHERED FRIENDS

Birds must never be without clean water. If they have insufficient water, even for a day, they become stressed which can lead to them moulting and egg production will drop or cease altogether.

Hens body weight is 75% water as are their eggs.

High quality drinker, feeder, grit and more are available in store.

There are different sizes for both types available. It's recommended to match the size of grit with the size of your birds.

Kiwi Seed Layers Pellets Extra has all the benefits of a layers pellet which is a balanced diet complete with daily minerals, plus the added benefit of kibbled maize, peas, wheat and grit. All this goodness in one bag!!

Available in 10kg and 25kg bags

Heading to HOY next month???

Stock up on all of your essentials before you go.

We have a great range of horse feeds from NRM, Dunstan, Fibre Fresh, Futures & Annadale Chaff, McMillans, Coprice, Mitavite, Hekeao, and of course Kiwi Seed horse feeds. Check out our extensive range in store

We wish all competitors the very best of luck!

Set your Citrus trees up for winter with a dressing of Citrus fertiliser.

Sow seeds of winter vegetables like cabbage, cauliflower, broccoli, beetroot, winter lettuce, brussel sprouts, spinach, carrots, leeks and silverbeet. We have a great range of Mr Fothergills seeds.

Sow green crops – phacelia, lupin, buckwheat, red clover or mustard to give your soil a rest between crops, to provide a living mulch for autumn plantings.

Applying mulch around the base of your plants can conserve up to 70% moisture in the soil and also suppresses weed growth. Use Daltons Mulch & Grow.

Keep lawn weeds under control this month so you can sow grass seed in the autumn. Use Grassmate or Turfix to eliminate broadleaf weeds.

COPRICE DOG FOOD — QUALITY NUTRITION

CopRice's dog food range offers something for every dog and puppy in your care. Your dogs are your best mates; they keep you company and cheer you up, so they deserve nothing but superior quality nutrition. Our dog foods are formulated to be balanced and complete and provide your furry friends with:

Protein: High quality beef and/or chicken meals that contain the essential amino acids required to build and maintain muscle and perform important physiological functions.

Carbohydrates: Highly digestible starch from natural cereals and fibre to help maintain gut movement.

Fats and oils: Highly digestible animal fat and whole linseed, source of Omega 3 fatty acids.

Vitamins & Minerals: Over 23 vitamins and minerals for good health.

***These and lots of other products
are available in our store.***
